### **The Flower Remedies**

Hopefully, many of you have heard of the Bach Flower Remedies or, at least, “Rescue Remedy”. These were developed by Dr. Edward Bach (1886 –1936) a physician and homeopath living in Great Britain at the turn of the last century. He originally created the seven “Bach Nosodes” – also known as “Bowel Nosodes”. He, later, surmised that certain flowers had healing properties and went about creating distillations of the flower, mixing them with brandy and using them to treat a multitude of illnesses and “conditions”.

The Bach Flower Remedies have been in use for almost 100 years and we use them, extensively, in our practice to help address mental and emotional issues.

While often called homeopathic, they are actually not homeopathic in the truest sense, because they are only diluted and not potentized (i.e. succussed) and do not follow the basic premise of homeopathy- the “Law of Similars”.

As we mentioned earlier, the most famous combination of the Bach Flower remedies is *Rescue Remedy* which contains Cherry Plum, Rock Rose, Star of Bethlehem, Clematis and Impatiens flowers. We prefer a variant of the original brand called Five Flower Formula by FES (Flower Essence Services in California).

There are 38 original Bach Flowers and we will detail them in this chapter, but there are also a multitude of additional flower essences that have been developed in the last century since Dr. Bach. These are useful for many of the same emotional situations and newer problems like EM (electro-magnetic) sensitivity. Greenhope Farms in Vermont and Anaflora in California are sources of these newer and custom remedies. Our good friend and healer Sharon Callahan of Anaflora will also make custom formulations based on her sense of the specific patient need. This is beyond the scope of our chapter but it is always important to make people aware of the finesse and skill that can and should be applied to these remedies.

We will make up combinations of different flowers based on the needs and emotional state and personality of the patient. Storm fears, aggression, separation anxiety or grief are just some of the examples of the things we treat with Flower Remedies. We will often use these in conjunction with our other modalities, including homeopathy and rarely see anything but positive effects. We do not feel that Flower Remedies, when used in moderation, antidote homeopathic therapy.

Here are the original 38 Bach Flowers with a brief description of their focus.

Disclaimer -These summaries are NOT original as they are based on Dr. Bach's writings and have been handed down and repeated for almost one hundred years so any similarity to published material stems from that fact and we know of no one to credit with the copyright besides Dr. Edward Bach.

### **Making Up the Actual Solutions**

When we mix these remedies into a custom formula, we use a few drops from the stock bottle and add that to our dropper bottle, we then will use a brandy /water mixture to dilute and stabilize it. There are also other stabilizers that do not involve alcohol like Red Shiso (Greenhope Farms).

It is customary to only combine up to five essences into one formula (with Rescue Remedy counting as one if it is used). These are used orally, in water, on food, allowed to evaporate into the air and can be applied to the ear tips or pulse points.

These are the original 38 Bach Flowers and, as previously mentioned, there are a number of additions to the "Flower Remedies" over the years.

### **Some of Our Custom Formulas**

As some examples, we like the following combinations for general, particular purposes:

Noise and Thunderstorm Fears 1 – Aspen, Mimulus and Rock Rose

Noise and Thunderstorm Fears 2 – Aspen, Mimulus, Walnut, Rock Rose and Rescue Remedy

High Anxiety: Larch, Elm, Clematis, Walnut and Rescue Remedy

Victim Formula: Aspen, Agrimony, Larch and Rock Rose

Aggression Formula 1 : Vine, Vervain, Holly

Aggression Formula 2 (usually more fear based): also good for Feral Cats and inappropriate urination (marking): Vine, Vervain, Holly, Impatiens and Rock Rose

Self-Confidence: Agrimony, Larch, Gorse, Rock Rose and Mimulus

There are a number of training programs and certification for Flower Essence practitioners and we have never found a negative to the use of these substances (in moderation) by the pet owner although getting the greatest effect may often require someone with advanced training or experience.
